PROPER USE OF INFORMATION RESOURCES

It is the policy of the Mt. Sinai School District to maintain access for its staff and student's local, national and international sources of information and to provide an atmosphere that encourages access to knowledge and sharing of information. The Mt. Sinai UFSD works to create an intellectual environment in which students, staff and faculty may feel free to create and to collaborate with colleagues at any institution, without fear that the products of their intellectual efforts will be violated by misrepresentation, tampering, destruction and/or theft.

It is the policy of the Mt. Sinai UFSD that information resources will be used by members of its community with respect for the public trust through which they have been provided and in accordance with policy and regulations established from time to time by the State of New York, the State Board of Regents, the State Board of Education and the Mt. Sinai UFSD Board of Education and Administration.

For purposes of this policy, information resources are meant to include any information in electronic or audio-visual format or any hardware or software that make possible the storage and use of such information. As example, included in this definition are electronic mail, local databases, externally accessed databases, CD-ROM, On-Line services, the Internet, motion picture film, recorded magnetic media, photographs, and digitized information such as may be made available on the network or in the district.

Access to the information resource infrastructure within Mount Sinai UFSD, sharing of information and security of the intellectual products of the community, all require that each and every user accept responsibility to protect the rights of the community. Any member of the Mt. Sinai UFSD community who, without authorization, accesses, uses, destroys, alters, dismantles or disfigures any institution information technologies, properties or facilities, including those owned by third parties, thereby threatens the atmosphere of increased access and sharing of information , and threatens the security within which members of the community may create intellectual products and maintain records. That person(s) has engaged in unethical and unacceptable conduct and moreover, may be guilty of violating the New York State law. Access to the networks and to the information technology environment within Mt. Sinai UFSD is a privilege and must be treated as such by all users of the network and its associated systems.

To ensure the existence of this information resource environment, members of the Mt. Sinai UFSD community will take actions to identify and to set up technical and procedural mechanisms to make the information technology environment on the network resistant to disruption.

The Mt. Sinai UFSD characterizes as unethical and unacceptable, and just cause for taking disciplinary action, removal of networking privileges, and/or legal action, any activity through which an individual:

(a) violates such matters as institutional or third party copyright, license agreements and other contracts,

(b) interferes with the intended use of the information resources,

(c) seeks to gain or gains unauthorized access to information resources,

(d) uses or knowingly allows another to use any computer, computer network, computer system, program, or software to devise or execute any artifice or scheme to defraud or to

obtain money, property, services, or other things of value by false pretenses, promises, or representations.

This policy is applicable to any member of the Mt. Sinai UFSD community, whether at educational institutions or elsewhere, and refers to all information resources whether individually controlled, or shared, stand alone or networked. The individual buildings may define "conditions of use" for facilities under their control. Such statements should be consistent with this overall policy but may provide additional detail, guidelines and/or restrictions. Where such "conditions of use" exist, enforcement mechanisms defined therein shall apply. Disciplinary action, if any, for students, faculty and staff shall be consistent with the district' standard policies and practices. Where use of external networks is involved, policies governing such use also are applicable and must be adhered to.

Parent/Guardian: New York State law (Chapter 281) permits schools to request a dental examination in the following grades: school entry, K, 2, 4, 7, & 10. Your child may have a dental check-up during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your dentist for an assessment. If your child had a dental check-up before he/she started the school, ask your dentist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

Section 1. To be completed by Parent or Guardian (Please Print)

Child's Name: Last First Middle

Have you noticed any problem in the mouth that interferes with your child's ability to chew, speak or focus on school activities? ☐ Yes ☐ No

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.
