

## **Notice Regarding Geometry Regents**

As a result of a discrepancy in the wording of question #24, the New York State Education Department on 7/25/17 has instructed all school districts to review the results of this year's Geometry Regents and recalculate the scores of students' exams as necessary. Students who selected answer choice 1, 3 or 4 or who did not chose an answer for this question will now be awarded credit, as the question did not have one clear or correct answer. The district is in the process of completing this review and will contact any student whose score will change to passing as a result of this review process on 7/27. Revised Regents Geometry Regents will be available in the guidance office or from the Director of Stem, Mr. Matthews.
