Page Last Modified: 06/14/2023

Executive Summary

MT SINAI UFSD - 580207020000

The New York State Education Department (NYSED) has developed the online *2023-24 Consolidated Application for ESSA-Funded Programs* to support the timely administration of programs funded by the Every Student Succeeds Act (ESSA) to local educational agencies (LEAs) across the state. The application is streamlined to focus on the required assurances from Section 8306 of ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with an *LEA Affirmation of Private School Consultation* form will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Office of ESSA Funded Programs and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

Title I Part A - Program Information (Part 1 of 6)

PLEASE NOTE - All program activities supported by Title I, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.

1. Did the LEA evaluate the progress made toward achieving the Title I, Part A program goals set for the previous school year?

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title I, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title I, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, include homeless and/or neglected youth as applicable, and provide the basis for coordinated efforts on the part of the LEA to address them.

The Mount Sinai School District reviewed the data from NYS assessments, local assessments, AIMSWeb benchmarks and Fountas and Pinnell Leveled Literacy outcomes and determined that the district met the one year goal of having 75% of the students in grades K-6 reading at or above grade level, however we did not reach the two-year goal of 90% of the elementary students (Grades K-6) reading at or above grade level by the close of the school year. The district met the one-year goal. Students particularly the K-4 students continue to struggle from loss of learning related to the COVID-19 pandemic. They also do not seem to possess the necessary foundation skills as they enter Kindergarten. We noted a greater percentage of entering Kindergarten students did not attend preschool or day care. The levels of motivation, attention and focus do not reflect pre-pandemic levels of engagement. As a result the district will continue to identify elementary literacy as a primary need.

The literacy plan will be reviewed annually and the district will set the goal for 90% of our elementary students (K-6) reading at or above grade level by the close of the 23-24 school year.

The district will employ a consistent reading and writing program in grades K-6 beginning in the 2023-2024 school year. In order to attain the literacy goal it is understood that a strong emphasis needs to be placed on literacy instruction particularly at the primary grades K-4, which builds the foundation for elementary literacy. In order to increase student performance in the Elementary School, funds will be allocated for additional instruction and teaching staff for the effective implementation of research-based programs (ie Fountas and Pinnell Leveled Literacy, Wilson Reading Systems and Teachers College Reading & Writing Project). Since early literacy skills are noted to be weak, the Elementary school will also have teachers use the Heggerty Phonemic Awareness System in Grades K-1 to support phonics development. Teachers will help build phonemic awareness, vocabulary, comprehension and reading fluency. Funds will be allocated to support the salaries of AIS/ELA providers. The district will utilize multiple measures of reading performance/achievement and a multidisciplinary approach to determine student need for AIS.

3. **In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs impacting student achievement.**

The District will focus solely on the goal of increasing student performance in the area of literacy. By the end of the 2023-2024 school year, 90% of the students in grades K-4, will be reading at or above grade level as measured by AIMSWeb Plus as a universal benchmark screening and Fountas and Pinnell Benchmark Assessment System as grade level literacy indicators.

Title II Part A Program Information

PLEASE NOTE - All program activities supported by Title II, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.

1. Did the LEA evaluate the progress made toward achieving the Title II, Part A program goals set for the previous school year?

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title II, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student and/or teacher needs that impact academic achievement, and (2) how your Title II, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.

The Mount Sinai School District reviewed the data from NYS assessments, local assessments, AIMSWeb benchmarks and Fountas and Pinnell Leveled Literacy outcomes and determined that the district met the one year goal of having 75% of the students in grades K-6 reading at or above grade level, however we did not reach the two-year goal of 90% of the elementary students (Grades K-6) reading at or above grade level by the close of the school year. The district met the one-year goal. The Elementary School students, (K-4) continue to struggle from loss of learning related to the COVID-19 pandemic. They also do not seem to possess the necessary foundation skills as they enter Kindergarten. We noted a greater percentage of entering Kindergarten students did not attend preschool or day care. The levels of motivation, attention and focus do not reflect pre-pandemic levels of engagement. Through a thorough analysis of local and New York State assessment scores as well as classroom observation of student's performance in reading and writing across all content areas, the district will continue to identify elementary literacy as a primary need for the 2023-2024 school year.. The need for a consistent reading program in grades K-6 continues to be a priority. The district currently uses Teachers College Reading and Writing project in grades K-4. TCWriting is used in grade 5 as well. The district will expand the use of Teachers college Reading and Writing Project to Grades 5 & 6 during the 2023-2024 school year.

Teachers in Grades K-6 will receive professional development focusing on the implementation of the Teachers College Reading and Writing Project to provide consistency across grade levels. Teachers will also receive professional development on the utilization of instructional practices reflecting Next Generation Learning Standards, expectations and rigor in ELA/Literacy. The expectation is that by strengthening the instruction for a foundation in literacy, there will be positive impact on student performance across all content areas..

2. **In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title III, Part A - ELL program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.**

To address these performance gaps, Title III, Part A funds will be utilized to supplement the CR Part 154 language instruction requirements for programs serving English Language Learners (ELLs) by integrating content and language instruction and incorporating technology into ENL strategies/tasks to differentiate instruction for heterogeneous groups of ELLs based on their individual language needs. In addition, The 2023-2024 L.I. RBERN Title III Consortium will provide professional learning for teachers of ELLs to specifically address and support methodology and instruction for the Integrated ENL classroom. Co-teachers who work together with ELLs, will develop their co-planning skills through a series of regional workshops on the effective use of technology to create dynamic learning ecosystems. They will also participate in a book study and workshop series entitled "Coplanning Essentials: Content and Language Instruction for K-12 Integrated ENL Classrooms". Teachers will collaborate to design a project and performance based learning experience that is inquiry based and rooted in the 5 principles of the 17 UN Sustainable Development Goals: People, Planet, Prosperity, Peace, and Partnership. These learning experiences will provide ELLs in member districts with cutting edge supplemental instruction that is student-centered and includes language learning activities that foster the development of cross-cutting skills and digital literacy. Providing teachers of ELLs the tools and training to work effectively together and use technology as an integral part of instruction, provides ELLs equal opportunity to learn the skills needed to be successful in the future. Research and demographic data show that ELLs' access to and experience with technology varies greatly from one student to the next with many ELLs lacking consistent access outside of school. The need for students to develop advanced literacies is key to academic success and is becoming more closely linked to success in college, career and life in the 21st Century. This includes project and performance based learning that is experiential and connected to real-world events; promotes digital literacy and academic language development; and allows students to create, communicate, and share knowledge in a variety of settings. For 2023-2024, the title II Consortium professional development sessions will reinforce implementation of the NYS Next Generation ELA Learning Standards within the ENL Classroom, incorporating them into instruction so Consortia ENL teachers are engaged in the full implementation of the Next Gen ELA standards in 2023-2024. In addition, teachers will continue developing their understanding of culturally responsive-sustaining practices as the NYSED Culturally Responsive-Sustaining Framework will be incorporated into every Consortium professional learning opportunity. Finally, for the 2023-2024 school year, the L.I. RBERN Title III Consortium has partnered with Fullmind to provide a virtual ENL Afterschool Enrichment Program for ENL students who are in the L.I. RBERN Title III Consortium member districts. This virtual ENL afterschool enrichment program will be delivered in partnership with Fullmind and will provide supplemental instruction and support for ENL students that is aligned with the ENL classroom projects designed by their district ENL teachers.

- 3. In the space below, please describe the specific goals and/or outcomes the LEA has identified for ELLs based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs/obstacles impacting ELL student achievement.**

The L.I. RBERN Title III ELL Consortium goals encompass increasing Consortium ELL student performance on NYS Assessments through employing the “4 C’s” as described in the P21 Partnership for 21st Century Learning’s “P21 Framework” of Critical Thinking, Communication, Collaboration, and Creativity. The L.I. RBERN Title III ELL Consortium takes it one step further, adding a 5th C – Cultural Responsiveness, taking into consideration the cultural paradigm each student comes from and using it as a lever to academic success.

The L.I. RBERN Title III ELL Consortium intends to meet these goals through a multi-faceted approach of providing teachers of ELLs with technology equipment, subscriptions to online instructional tools and programs and professional development to support implementation through data analysis, professional development sessions and classroom-embedded support.

The year will begin with a 2-hour Orientation session for all L.I. RBERN Title III Consortium members. There will be six (6) 3-hour professional development modules, delivered synchronously online or in-person throughout the year. Each module will be focused on interdisciplinary content and language instruction aligned to the NYS NGLS ELA, Math, Science and Social Studies standards. There will also be three (3) 2-hour book study sessions delivered synchronously online. Throughout the school year, teachers will examine student data to inform instruction, as well as design learning experiences that integrate instructional technology tools to address student needs.

The professional development program will conclude with a 5-hour Celebration of Learning mini-conference featuring a Keynote address and workshop delivered by a current thought-leader in the field of Education. The culminating session will be a showcase of the student learning experiences that were designed and delivered through the school year and will include the innovative uses of instructional technology that they have found to enhance student outcomes. The learning experiences will be collected and published on the L.I. RBERN Celebration of Learning website for all Consortia member teachers to access and utilize. The resources developed in previous years can be found here: <https://sites.google.com/longislandrbern.org/lirbern-title-iii-celeberation/home?authuser=0>

An integral component of this professional development program is the classroom embedded support provided by instructional technology and data specialists. Each member district will also receive two days of classroom embedded support with a Technology Integration Specialist to support their transformative use of instructional technology and one day with a Shared Data Expert to examine their own ELL performance data and identify ways to address that performance through instruction.

The following are the L.I. RBERN Title III Consortium’s measurable goals to ensure that the program described above is carried out effectively.

By August 31, 2023, 50% of Consortium teachers will have attended 50% of in-person professional development offerings.

By August 31, 2023, 100% of Consortium member districts requesting it will receive embedded professional development.

By August 31, 2023, the number of Consortium member ENL teachers contributing one “learning experience outline” to the final “Title III Celebration of Learning” website will increase by 5%.
